An Echo of Halloween Night

An echo of Halloween night was heard on Saturday when several boys who were implicated in breaking a large plate glass window in a Chinese restaurant in town on that evening were brought before the J. P. with their parents, under the Juvenile Courts Act and each fined the sum of \$2.10 to pay the damage, the J. P., Mr. Hartmann, of Olds, waiving his costs. The local lawyers had used every effort to have this case settled without any legal proceedings being taken but while some of the boys did the right thing some others refused and consequently Court action had to be taken.

John F. Miller, the eye sight specialist, of Calgary, 404 Underwood Bldg., will be at the Roschud Hotel, Didsbury, on

Thursday, December 21st, to examine and correct all defective eyes. Special prices this visit. Remember the date, Dec.

Mail Your Letters Early

Mr. Morgan, Postmaster, says that a great deal of trouble may be saved to those sending through the mails by getting their letters or parcels into the Post Office as early in the day as possible. Much of the confusion in the mails is due to the fact that people rush in just before train time to catch the mail with the result that it is not sorted in the bags and has to be taken to the mail men on the train, causing them to open all the mail bags for sorting and oftentimes they have very short time to do this in. So that for your own benefit and as a help against errors and delays the earlier in the day you get your mail in, the better number 21st.

Municipal Elections to Be Held in February

It does not seem to be generally known that because of amendments made to the Town Act at the last session of the Legislature elections for Mayor, Councillors and School Trustees do not take place until the first week in February of each year according to the new regulations. A better opportunity will be given the urban ratepayers to check up the previous year's municipal business, because the complete annual financial statement will be given before the elections take place. Under the old system, when the elections took place in December, only a partial statement could be given and the ratepayer was in the dark to some extent as to the financial conditions left by the previous year's Council.

Both dental offices will now be open on Wednesday afternoons as usual.

The skating rink opened on Monday night and skating is on full swing for the winter.

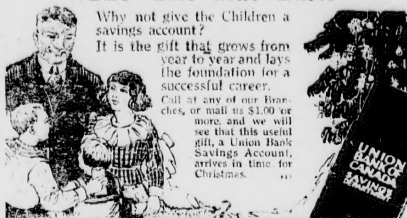

Gold Metals Donated to Curling Club

A successful meeting of enthusiastic curlers was held in the C. P. B. waiting room last Thursday night with an attendance of about thirty. There was a considerable amount of business brought up before the election of skips and choice of rinks and several committees were formed. A discussion arose on the question as to whether to use the Championship Cup as a Challenge Cup also or whether to get individual medals to be played for. The general feeling, however, seemed to be towards getting the medals and was unanimously decided upon by E. C. Freeman and J. A. McGhee said that they were going to make a present of the medals if the club decided to use them. In fact they had four gold medals there which were passed around and admired by those present and keen competition is assured on Wednesday and Saturday nights for the winning of these medals. A hearty vote of thanks was moved to the donor for their splendid donation.

There was a membership of forty-eight signed up which made the even twelve rinks. The following skips being selected: Dr. Clarke, E. E. Freeman, A. Brusso, J. M. Reed, J. V. Berscht, A. E. Ryan, D. Sinclair, J. E. Hugel, A. G. Sluder, G. Harrison, T. Thompson, F. Moyle. The skips then chose their rinks for the coming season. The first schedule, President vs. Vice-President, is a knock-out competition and commenced on Tuesday night.

Mr. A. C. Fisher has been appointed an official auditor for the Didsbury district and will now be engaged for auditing School District or other organization books.

MASONIC "AT HOME"

The Masonic At Home held by King Hiram Lodge in the Opera House on Friday night last was very successful. There was a large attendance and the cards and dancing were enjoyed to the utmost, the music being supplied by an orchestra from Red Deer. The lunch which was put up by the Eastern Stars was a hit in itself, and the chicken sandwiches were sure good at the disappearing act. The light thrown on the affair was from gas lamps owing to the electric lights being out of commission but this was a minor detail when everything else ran off so smoothly.

SPECIAL MEETINGS

There will be a week of special meetings held in the M. B. C. Church Didsbury, commencing December 21st at 7 p. m. and continuing each evening through the week, at 8 p. m., closing on December 31st. This is a special effort on behalf of the Didsbury Young People.

Sunday, December 31st will be a farewell meeting for the outgoing missionaries. The meeting will be addressed by Mr. W. Finlay, returned African missionary and Miss Maggie Finlay. Miss Finlay is well known amongst our young people and is leaving early in January with Mr. W. Finlay for Africa. A Watch night service will follow the Missionary service. All are welcome.

We strongly advise all persons owning white cats to keep them carefully housed at night as we understand our night watchman carries a gun and is no friend of that particular kind of feline.

Tomatoes Ripen in North Country

Farmer Secures One Thousand Pounds Of Ripe Tomatoes in Peace River Country

Just north of Peace River, which is 350 miles north of the International Boundary, a farmer, Pendell Bush, ripened 1,000 pounds of tomatoes in the best quality this season. At Fort Vermilion, 100 miles farther south, tomatoes, cucumbers, pumpkins and musk melons were matured. When it started to be "Simmer time" here, as it is called, and the first crop abundant, settlement of the Peace River country is continuing at a healthy rate and this year more than 1,200 settlers have secured farms in Northern Alberta through homesteading.

A Prosperous Nation

Future Well-Being of the Dominion Is Assured

The truth is that Canada is a cog in the world. We have our problems, and they are not light, but compared with the difficulties of other nations, they are as nothing. In the light of the achievements of the past eight years, they cannot impose too much on our resources. All that we require is reasonable sanity. If we can but guard against the innovation which threatened us with worse days, in worse days, can adhere to realities and cut our financial coat to suit our financial cloth, our future prosperity is assured. — J. GUARD THE CHILDREN FROM AUTUMN COLDS

The Fall is the most severe season of the year for colds, one day, warm, the next cold and wet, and unless the mother is on her guard, the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mother's best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose of the Tablets will prevent colds, or if it does come on suddenly their prompt use will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Hamilton Man Says Figs Can Be Grown for Commercial Purposes in Canada

From results which have attended his efforts in the past two years, John Platt, of Hamilton, has come to the conclusion that figs can be grown for commercial purposes in Canada. Mr. Platt, a well-known organizer in the American Federation of Labor, has grown a second crop of figs to support his claim.

"During the war I planted a big tree and gave it no more attention. By last year the tree was six or seven feet in height and yielded a peck of figs," he says. "The figs were larger than any I have seen in the United States, even the most southern parts, and they were perfect for domestic purposes."

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years, its use has been constant for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. WEDNESDAY, DECEMBER 13

Back to Candle Light

Last Wednesday night the town was plunged in darkness when something went wrong at the power plant. It is so seldom that our efficient plant under its capable management is not functioning that the worthy citizens were caught unprepared and considerable inconvenience was caused to some as a result. However, it's an ill wind that blows no one good—the grocery stores must have done a rushing business in candles for a while. The lights came on a couple of times afterward for a short time but they only raised a few flames. There was some difficulty in finding the trouble but it has at last been located and the plant is again in running order.

Canada Needs Immigration Now Is the View of Lord Shaughnessy

Canadian Pacific Chairman Urges Aggressive Campaign to Bring Desirable New Citizens—Suggests Appointment of Minister of Immigration

THE predominant importance of a sound and aggressive immigration policy for Canada was vigorously put forward by Lord Shaughnessy, Chairman of the Canadian Pacific Railway in an address to the Kiwanis Club of Montreal on November 16th. Lord Shaughnessy endorsed the kind of immigration selected and directed immigration as a remedy for Canada's railway and other troubles and earnestly urged the appointment of an enterprising Minister of Immigration and Colonization. He said in part:

Practically nothing has been done during the past eight years to attract population. Of course, the war interfered and during the period of the war it would have been impossible to bring people here, but four years have elapsed since the Armistice and again nothing has been accomplished in those four years, were it not for unwise immigration laws the practical abandonment of publicity work, and the withdrawal of agents. We have been hiding our light under a bush with the result that we have lost to other countries thousands of excellent settlers who should have come to us. Indeed, it is worse than that because the census returns show that in 1911, Canada had a population of 7,200,000, and the census returns for 1921 show a total population of 8,000,000. In other words, the vital statistics show that there was a natural increase of 1,800,000 and immigration into Canada from other countries of 1,975,000. Had we received no immigrants at all the natural increase should have given a population of 9,000,000.

When we take into account the fact that our National Debt, which was \$255,000,000 in 1914, has now reached the staggering sum of \$2,540,000,000, or approximately the equivalent of 2270 per capita of the population, a National Debt of \$255,000,000 (acquired for reasons that are more or less defensible) that with its annual debt charges, the greater portion of our entire population income tax, with no prospect of immediate improvement, we must realize that the burden is great for a population of 8,700,000 people.

Fairly stated we have on one side this enormous national liability and a sparse population. On the other side we have vast areas of agricultural land in the Western Provinces within fifteen miles of existing railway lines, only awaiting settlers to establish homes for their wives and their families, and make these lands productive to their own advantage and for the general financial advantage of Canada, and in Ontario, Quebec and the Lower Provinces there is still room for a great many thousands of settlers.

The mineral districts of our country thus far exploited are a mere patch on the great mineralized area of the Dominion, and our forest, utilized in a sensible way, will be a source of incalculable wealth. Clearly our policy must be to bring these matters under the notice of the people of Great Britain and the United States, but of many of the continental countries as well, and say to them: We expect you to become citizens of Canada, and to

BERGEN—NICHE VALLEY

Mr. Halvorsen, who has been in the States seeking health, returned to his home last Saturday. He says he is no better.

Clara Laikachans had the misfortune of dislocating her shoulder while at school. She is around again doing her bit.

The bath mill recently built here, and having turned out about three cars of bath, burned to the ground about 3 a. m. of a week ago Tuesday morning. It cost nearly a \$4000 loss to the Kristensen Motor Ltd., but Mr. Vallmeyer is rapidly rebuilding and intends having a night gleeman in the future.

Eidsvold's S. D. held its extravaganza on November the 8th. Mr. Burgess, assisted by the community, rendered an enjoyable program and supper. Considerable credit is due to the Bergen people who assisted and insured its success.

Mr. "Burr" Hargrove has been working at the bath mill. Many "old timers" will remember him and his connection with the Great West Lumber Co.

Master Frank Burgess has been a visitor at Eidsvold this week.

Martin Amson and John Haug are trapping in the foothills.

Mrs. Farnell is visiting in Calgary for a few weeks, but is expected home soon.

So when they play here why not everybody turn out and boost, give the boys the support they deserve, play your end of the game as well as they lay theirs.

The Didsbury Sportsmen's Association are putting on a big dance in the Opera House on Friday, December 22nd. After the Christmas Tree entertainment. A three piece orchestra will be in attendance which according to them is the best in the land. The boys are putting forth every effort to make this a good dance as they want as large a crowd as possible in order to pay up certain deficits of the Association incurred this last season. So if you dance at all, turn out to this one.

Kootenay Indians Baseball Champions.

The Kootenay Indians who played such a prominent part in the pageant arranged in connection with the David Thompson Memorial celebrations at Lake Windermere, B.C., are not only expert riders and canoe men, but have recently taken to baseball with wonderful enthusiasm. At the Lake Windermere District Fall Fair they played against a white team for the silver cup offered by Randolph Bruce, a local mine owner, winning it with a score of seven to five. The accompanying photographs show the team in their day clothes, and in their baseball rig-out. The team is captained by Dominic Nicholas, who is seen standing immediately behind the cup, and is supported by Martin Sam, Conrad Short, Christopher Joseph, Frank Whitehead, Noah Alpini, Gabriel Paul, Joseph Eugene, and Jerome Joseph. The Kootenays are one of the healthiest and most athletic tribes of Indians in America, the records of David Thompson over a hundred years ago intimating that they have always been a fine upstanding set of men. In the old days they were famous hunters, but now they spend more of their time farming and are adepts in the use of irrigation. During the pageant they appeared in wonderfully fine costumes, rich in blues and purples, and harmonious reds, making a display which greatly impressed their white brethren.
